Guarda Val is a unique Maiensäss Hotel composed of eleven cabins and barns which are each up to 300 years old. Being located in the hamlet of Sporz, directly above Lenzerheide on 1600 meters above sea level, it combines the charm of authentic Grisons alp tradition in a modern interpretation of alpine design and lifestyle. It skillfully and authentically combines luxury and pleasure, simplicity and real mountain experience. From this, three lighting principles were derived:

1. Light only where it is needed
2. Soft light through soft material
3. New technologies to fulfill current needs for the lighting
